Dexian Successfully Identifies and Places Niche Resources with Multinational Client

CLIENT:

US-based, multinational semiconductor company specializing in the manufacture of Microprocessors chips. Its Malaysia business stands as a crucial global hub in the semiconductor global supply chain, accounting for approximately 7% of total global semiconductor trade and 13% of global capacity in terms of back-end assembly tests and packaging.

@Dexian, LLC | 4905317265

Challenge

The client was establishing new projects in Penang, Malaysia and at a facility in Kulim District bordering Penang. Local resources lacked the experience in niche roles required by the project, including silicon chip design, validation, and software testing.

Solution

Dexian™ fuses the best elements of its legacy companies to create a global platform that connects talent, technology, and organizations to produce game-changing results that help everyone achieve their ambitions and goals. With decades of experience as a staffing partner and a deep understanding of modern business challenges, Dexian collaborates with its clients to find and deliver the right people and resources to accelerate their transformation journeys, especially in Designing, Validation, and Testing.

Outcome

- The client was able to start projects successfully within schedule due to Dexian's Support.
- Dexian was recognized as one of the client's top suppliers.
