CASE

CLIENT INFORMATION:
An Ivy League Institution.

PLACEMENTS

6

Consultants

SKILL SETS

- Project Manager
- Oracle DBA
- Integrations Developer PeopleSoft SR (Enrollment Management)
- PeopleSoft Support Developer
- PeopleSoft CS
- PeopleSoft Financial Aid Analyst

TECHNOLOGIES

- PeopleSoft CS 9.2 + Oracle Cloud DBA Migration

LENGTH OF CONTRACT
12+ Months

Problem

This private university had multiple needs:

- To complete a PeopleSoft financial aid restructure and re-implementation

- Upgrade Campus Solutions to 9.2, and

- Upgrade from Oracle Database Administrator (DBA) to the AWS Cloud.

Solution

Dexian™ identified, screened and delivered multiple Oracle and PeopleSoft developers and functional leads with expertise in financial aid and student records.

Outcome

Projects were supported in compliance with government mandates. The client continues to rely on Dexian consultants and has introduced the university's Human Resource Information System (HRIS) team to source Workday resources.
