Problem

SAP ECC to S/4HANA Migration: This client was undertaking a complex migration from SAP ECC 6 to the next-generation SAP S/4HANA system.

Legacy System Challenges: As early adopters of SAP ECC, the system has accumulated significant customizations over time adding complexity to the migration.

Lack of Internal Expertise: The client lacked the internal resources and expertise to navigate this complex migration.

Need for External Support: They required specialized assistance to ensure a smooth and successful transition to SAP S/4HANA.

Solution

SAP Expertise Deployment: Dexian assembled a team of specialized SAP consultants with expertise in key areas relevant to OG&E's migration, including Finance, Supply Chain, Work & Enterprise Asset Management, Business Technology Platform (BTp), ABAP development, Program Management, and Architecture.

Solution-Oriented Approach: Dexian's consultants focused on delivering tailored solutions to address OG&E's specific challenges and requirements throughout the S/4HANA migration process.

Outcome

Successful SAP S/4HANA Migration: Dexian's team of consultants delivered a successful and timely SAP S/4HANA migration for the client, exceeding their initial project goals.

Enhanced Efficiency: Dexian's expertise allowed the client to complete their migration ahead of schedule, enabling them to capitalize on the benefits of SAP S/4HANA sooner.

AI Initiative Support: Dexian provided the client with skilled ABAP developers with expertise in generative AI, facilitating the successful integration of AI into their SAP environment.

Strong Client Relationship: Dexian's team fostered a strong and collaborative relationship between the client and their AI initiative partners.
