

# Dexian Successfully Deploys SharePoint Planning Services

**PROBLEM:**

Client sought a single, user-friendly intranet platform to replace multiple communication, collaboration, and knowledge management tools.

**SOLUTION:**

Leveraging SharePoint, our team gathered requirements, built a business case, and charted a roadmap for a consolidated knowledge management platform.

**OUTCOME:**

Defined a best-practice build, implementation, and deployment plan, mapping requirements to SharePoint. Leveraging Dexian's expertise, we delivered 4 timely discovery documents outlining the development strategy and SharePoint benefits.

**CASE STUDY:**  
Retail

**CLIENT INFORMATION:**  
A national provider of mobile diagnostic services
