# Dexian Successfully Reduces Client Costs through Azure Migration Support

PROBLEM:

The client was migrating to Azure to establish a lower-cost business environment. If the migration of the core database failed, the entire business was at risk.

SOLUTION:

As the exclusive vendor, Dexian worked closely with the client to fill requirements within the requested timeline.

OUTCOME:

Dexian's Data Engineer successfully accomplished the project with no negative impact to functionality. Client was positioned to realize the savings of the new platform.

CASE STUDY:
Technology
