

# Precision Meets Compliance

## TALENT + TECHNOLOGY SOLUTIONS FOR MEDICAL DEVICE PACKAGING & LABELING

In medical devices, packaging and labeling are not just operational steps—they're critical to patient safety, product integrity, and global regulatory compliance. Organizations must navigate complex regulations across markets, including FDA and EU MDR, while maintaining speed, scalability, and accuracy.

Dexian delivers elite packaging and labeling professionals who bring technical precision and deep regulatory fluency to every phase of device commercialization. From sterile barrier systems to global UDI compliance, we ensure your products are ready for market—and ready to perform.

dexian®

# Specialized Talent for Regulated Packaging & Labeling

Dexian supports end-to-end staffing needs across packaging, labeling, and compliance functions:

## ENGINEERING & DESIGN

- Packaging Engineers (Sterile, Barrier, & Transport Packaging)
- Labeling Design Engineers (Medical Device Compliance)
- Graphic & Artwork Specialists (Regulated Environments)

## COMPLIANCE & DOCUMENTATION

- Labeling Compliance Specialists (FDA, EU MDR, UDI)
- Technical Writers (IFUs, Label Instructions, Translation Coordination)
- Regulatory Affairs Experts (Labeling Standards, Submission Prep)

## QUALITY & SUPPLY CHAIN INTEGRATION

- Quality Engineers (Labeling Validation & Change Control)
- UDI Analysts & Global Labeling System Experts
- Serialization & Supply Chain Traceability Consultants

# Dexian's Purpose-Built Delivery Process

## ENGINEERED FOR REGULATORY PRECISION AND MARKET READINESS

### Needs Assessment & Role Definition

We partner with stakeholders to define talent needs aligned to global packaging and labeling mandates (FDA, EU MDR, ISO 11607, UDI).

### Ai-Powered Talent Sourcing

Our national network and proprietary sourcing tools uncover professionals with validated expertise in highly regulated environments.

### Technical & Regulatory Verification

Candidates undergo technical screenings and compliance interviews to ensure readiness for high-impact packaging initiatives.

### Placement & Onboarding Support

End-to-end onboarding and compliance support—ensuring seamless integration and project acceleration.

**Real-World Impact**

# European Product Launch

## CHALLENGE

A top-tier medical device firm needed a compliant packaging and labeling team to support a launch under EU MDR.

## DEXIAN SOLUTION

- Labeling Compliance Specialist ensured EU MDR readiness.
- Packaging Engineer developed sterile packaging solutions.
- Regulatory Manager handled multilingual label coordination and UDI compliance.

## RESULT

The company achieved a successful and compliant product launch—avoiding delays and delivering safely to market.

# Why Dexian?

**Built for Compliance. Delivered with Speed.**

### REGULATORY FLUENCY

Deep expertise across FDA, EU MDR, and global labeling mandates

### SCALABLE SOLUTIONS

Contract, contract-to-hire, and full-time talent models

### MULTI-DISCIPLINARY EXPERTISE

Engineering, regulatory, and quality under one roof

### ACCELERATED TIME-TO-MARKET

Pre-vetted professionals ready to deploy

From concept to commercialization, Dexian equips packaging and labeling teams with the talent to succeed—safely, globally, and compliantly.

**Let's label the future—  
together.**
